

VILLAGES OPPOSE WAREHOUSES

Lodge Farm planning application moves to the PREAPP phase for building 5 massive warehouses on productive farmland

The proposed development will create enormous disruption and change the character of North Warnborough and surrounding areas. Literally thousands of HGV movements 24 hours a day, 7 days a week, coming and going from North, South, East and West. We must fight this! **Even if you've already submitted a comment via Hart's website, it's vital that you submit your comment again. Why? Because Hart will not consider any online comment on the PreApp! Hart now requires us to make our comments by email to planningadmin@hart.gov.uk. And the deadline is 26 July.**

Your Next Step

Go to <https://www.hart.gov.uk/planning-applications> search for 22/01355/PREAPP :

Outline application for Use Class B2/B8 warehousing, electric vehicle charging facility, new access from A287, associated works and landscaping. Land At Lodge Farm Hook Road North Warnborough.

To object you must email planningadmin@hart.gov.uk Quote the PREAPP number Ref 22/01355/PREAPP Please do this before the closing date for comments: 26th July.

Bear in mind a further objection will be needed to the Full Application if and when it is issued.

Writing your objections in your own words carries much more weight.

There are very many valid reasons to object: adverse visual impact, negative effect on the character of the area, noise nuisance, traffic problems, light pollution, flooding, impacts on local conservation areas, SSSIs, blocking public footpaths and disturbing natural habitats. The development is contrary to policies in the Hart Local Plan and the Odiham and North Warnborough Neighbourhood Plan.
